Summary

I am a recent software engineering graduate with a strong interest in programming, data analysis, and finance. I am looking to join a dynamic team where I can apply my knowledge and add value through data analysis.

Skills

Languages: English (B1), Spanish (native)

Programming: Python (advance), SQL (intermediate), VBA (basic)

Software: Excel (intermediate), PowerBI (basic)

Soft skills: Effective communication, Critical thinking, Results-oriented, Strategic adaptability, Self-management, Continuous learning mindset

Education

BS **Universidad Nacional Autónoma de México**, Computer Science Aug 2018 – Nov 2024

Experience

Facultad de Ingeniería, Assistant professor Sept 2022 – Mar 2023
My responsibilities included grading assignments, creating reports in Excel, managing email accounts, and advising students on course-related matters. 7 months

Projects

Analysis for the ASOS Store Mar 2026 – Apr 2026
I conducted a descriptive analysis of a bank's data to help assess credit risk more accurately for new loan applications.

Analysis of Banking Data Oct 2025 – Nov 2025
I conducted a descriptive analysis of a bank's account data to assess the credit risk of new applicants

Predicting the selling price of used cars Mar 2025 – June 2025
I implemented a machine learning model to identify the key factors that determine the selling price of used cars with 80% accuracy

Certificates

- Management Skills Development (2025)
- Applied Data Science with Python (2025)
